Fast – easy – accurate

The fully automated Piccolo Xpress® chemistry analyzer is simple to use and delivers a complete panel of up to 14 lab-accurate tests results in 3 steps and 12 minutes.

It takes only 30 seconds to prepare a disc and enter the patient and run information. The Piccolo does the rest. It is walk-away operation.

1. Add Sample

Simply collect 100 µl of whole blood, serum or plasma, and transfer it to the self-contained reagent disc.

2. Insert Disc

Place the disc into the analyzer drawer, enter the requested information and the Piccolo Xpress® does the rest. Results are ready in 12 minutes.

3. Read Results

The Piccolo records the patient results, reference ranges, QC information, interference, patient data and more. Results can be viewed on-screen, on the printout or sent directly to an LIS via USB or Ethernet.
